

COMMERCIAL COLLECTION

ribbed | grooved | flush

# COMMERCIAL

COLLECTION

The Commercial Collection offers a wide variety of designs including ribbed, grooved, flush, raised and carriage panels.

With rugged section construction and a commercial grade hardware package, our doors are sure to stand up to most industrial environments. They are perfect for warehouses, commercial and agricultural buildings.

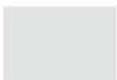

## RIBBED PANEL

---

- 4120 Non-Insulated | 24 Ga. Steel
  - 4220 Insulated Vinyl Back | 24 Ga. Steel
  - 4320 Insulated Steel Backer | 24 Ga. Steel
- 

- > Heavy-Duty 14 or 11 Gauge Hinges
- > 2" or 3" Steel 10-Ball Bearing Rollers (as required)
- > 2" or 3" Galvanized Steel Track (as required)

*All PDM ribbed panel doors are constructed of 2" steel hemmed rails with tongue and groove section joints and 18 gauge stiles. Stiles are fastened to the section skins by using a strong interlocking clinch joint that does not require external fasteners, which typically causes interference when fastening hardware.*

*Brochure color may vary from actual product. | Bronze Only Available in Grooved & Flush Panels*

ProDoor's steel sandwich construction creates a strong and durable section that provides an insulated barrier from the harshest environments.

## GROOVED & FLUSH PANEL

---

**4421** Insulated 3-Layer | 24 Ga. Steel

**4422** Insulated 3-Layer | 24 Ga. Steel

---

- > Heavy-Duty 14 or 11 Gauge Hinges
- > 2" or 3" Steel 10-Ball Bearing Rollers (as required)
- > 2" or 3" Galvanized Steel Track (as required)

STRENGTH & EFFICIENCY  
combined with value

# the difference is in THE CONSTRUCTION

## NON-INSULATED

- 25/24 Ga. Steel Exterior
- Tongue & Groove Section Joint
- Heavy-Duty Galvanized End Stiles
- Aluminum Bottom Seal Retainer
- Vinyl Bottom Weatherseal

## INSULATED 2-LAYER

6.8\*  
R-Value

- 25/24 Ga. Steel Exterior
- Tongue & Groove Section Joint
- 1 3/8" Polystyrene Insulation
- Heavy-Duty Galvanized End Stiles
- Aluminum Bottom Seal Retainer
- Vinyl Bottom Weatherseal

## INSULATED 3-LAYER

10.0\*  
R-Value

- 24 Ga. Nominal Steel Exterior
- 27 Ga. Steel Interior
- Tongue & Groove Section Joint
- 2" Steel Sandwich Construction
- Heavy-Duty Galvanized End Caps
- Aluminum Bottom Seal Retainer
- Vinyl Bottom Weatherseal

\* Pending testing in accordance with DASMA TDS-163
